

AP CALCULUS is an advanced and weighted college level rigorous course. You are expected to work to the best of your ability at all times.

Grading

- Grading is done by total points.
- Most points come from homework, graded homework, quizzes, and tests.
- Simply take the number of points earned and divide by the number of possible points.
- Multiply by 100 to get a percent.
- The grading scale is as follows: 90-100% A, 80-89% B, 70-79% C, 60-69% D.
- Check your grades periodically on line. If you believe there is a mistake, please see me.

Homework/Tests

- ❖ Assignments are typically worth 4 points.
- ❖ Each problem must be done to receive total points.
- ❖ Your success in this class depends mostly on doing and correcting the homework.
- ❖ Periodically, assignments are graded for accuracy and worth more points.
- ❖ Expect at least 5 quizzes or tests each nine weeks worth about 30-70 points each.
- ❖ If you are absent on a test day, you will take it during class the next day back. Be prepared!!
- ❖ You will be given a Math XL assignment at least once a 9 weeks.

Class Time

- Come to class prepared and ready to go when the bell rings!
- We work from bell to bell. **Keep your phones away!!!**
- You will need a graphing calculator, notebook and a binder, pencil...
- I do not have extra calculators to borrow.
- If you are absent, get the notes missed from someone.
- Use your planners.

College Credits

- There is an opportunity for any student to obtain 4 college credits for this course in 2 different ways.
- One is by taking the AP Exam in the spring. Sign up is in Feb/March.
- The other is through the University of Pittsburgh and is called College in High School (CHS). CHS tests and grades are given and graded by Mrs. Welsh. Sign up is in Sept.
